## About Booster's Socially Responsible Investment Funds

Booster offers a range of socially responsible funds, which exclude investments that do not satisfy certain socially responsible criteria and allow Kiwis to reflect their values in their investment choices.

In addition to considering environmental, social and governance criteria in our assessment of certain investments, these funds also exclude investments in directly held companies and managed fund investments that are principally involved in certain activities within the **tobacco, alcohol, gambling, armaments, nuclear power, pornography and fossil fuel** industries. These funds also exclude investments in directly held companies that are principally involved in **animal testing on non-medical products, factory farming, genetically modifying organisms, seaborne livestock exports, whaling, recreational cannabis and palm oil production**.

Our Approach to Responsible Investing policy ([booster.co.nz/responsible-investing-policy](https://booster.co.nz/responsible-investing-policy)) is a great place to learn more about what we do. It includes more detail on excluded investments in the section titled "Socially responsible investing".

CERTIFIED BY RIAA

This fund has been certified by the RIAA according to the strict operational and disclosure practices required under the Responsible Investment Certification Program. See [www.responsiblereturns.com.au](https://www.responsiblereturns.com.au) for details.<sup>1</sup>

## Investment Objective and Strategy

The Socially Responsible High Growth Portfolio is part of the Workplace Savings Section. The fund is suited to investors who seek potentially higher returns on average over long term periods (ten years plus), allowing for short to medium term ups and downs, whilst excluding investments which do not satisfy certain socially responsible investment criteria. We aim to achieve this by investing predominantly in growth assets, with little or no allocation to income assets, and the application of our Responsible Investment Policy.

## Benchmark Asset Allocation

## Risk Indicator

The Risk Indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the Fund's assets go up and down (volatility). A higher risk generally means higher potential returns over time, but more ups and downs along the way. See the Product Disclosure Statement for more information about the risks associated with investing, and how the risk indicator is calculated.

<sup>1</sup> The Responsible Investment Certification Program does not constitute financial product advice. Neither the Certification Symbol nor RIAA recommends to any person that any financial product is a suitable investment or that returns are guaranteed. Appropriate professional advice should be sought prior to making an investment decision. RIAA does not hold a Financial Advice Provider licence.

<sup>2</sup> The Booster SuperScheme Workplace Savings Socially Responsible High Growth Portfolio (the "Fund") was created on 21 December 2021 with the first investment into the Fund on 26 May 2022. There were no investors in the Fund between 26 October 2023 until 14 March 2025. For simplicity we have taken 14 March 2025 as the Fund inception date for return reporting in this document.

<sup>3</sup> Expected returns (before tax, and after estimated fund charges) are calculated based on Booster's long-run expectations for investment markets and fund performance and are not a guarantee of future results. The expected returns do not take into account any fees you may have agreed with your financial adviser. The calculation takes information on how market returns have varied in the past and gives a range of what is assessed to be likely in the future. The ranges of expected returns have been calculated using a statistical tool of 2 ½ standard deviations of return volatility – this means that actual returns are expected to fall outside these ranges 1 year out of every 100. While these ranges may be used as a guide, due to the uncertainty inherent in financial markets they are also not guaranteed. Booster reviews the expected returns calculation periodically.

## DNR Capital Australian Equities SR Strategy

As at 30 June 2025

### About the Strategy

The Australian Equities Socially Responsible Strategy is an actively managed strategy that offers investors exposure to a concentrated portfolio of large and mid-sized Australian companies. The strategy targets high-quality companies which DNR consider to be those with earnings strength, superior industry positions, sound balance sheets, strong management and low ESG risk. The strategy excludes investments in companies where the underlying activities are principally involved in the tobacco, gambling, armaments, nuclear power, and fossil fuel industries, among others. For further details on excluded investments, see our Approach to Responsible Investing policy at <https://www.booster.co.nz/responsibleinvesting-policy>.
